

As a Tourist in Dolalghat

Dolalghat Beach Hotel is ready to accommodate you with a wide range of activities in and around our marvelous nature, such as:

Fishing groups: our rivers are famous for the fresh fish. People who love fishing, these rivers would be the best option.

Boating: You will not have to go far. Our local boats and steermen will give you a great day on the river.

River rafting: Sunkoshi river is very famous among the people who love rafting. This can be done the year around, but of course the rainy season is the best time.

Walks in the nature on amazing paths:

Dolalghat is beautiful with the natural environment. Whether you make small walks near the river bank or trails to the mountain, it will give you relaxation of being with mother nature.

Visit to some of the great monasteries in the vicinity: There are many beautiful monasteries, temples and yoga centers in and around Dolalghat. The famous monastery of Namobuddha and the old Kalinchowk and Planchowk temples are worth visiting.

Beach Hotel

Our trained staff is ready to accommodate you. Cozy rooms and comfortable beds will make your stay a journey to remember.

And – don't forget:

Try our cuisine – you might be astonished by the range of menus, which range from:

Nepali Dal Bhat

Different Western Menus

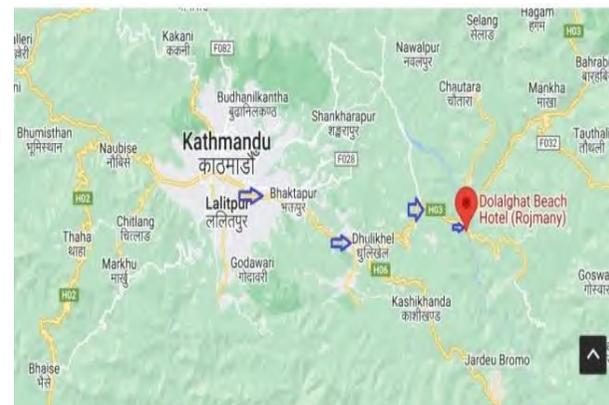

Local specialties

And – if you want to give a hand in one of our projects we will give you a good offer for the length of your stay.

Dolalghat Beautiful

Dolalghat is a beautiful place located 60 kilometers away from Kathmandu. A place with quiet and peaceful rivers flowing between two peaks, Dolalghat is often considered as a picnic and movie shooting spot.

The way to Dolalghat is interesting and exciting as you ride through the hills going past the tallest standing statue of Lord Shiva in Sanga and the wonderful and famous towns of Bhaktapur and Dhulikhel.

Throughout the journey, you are accompanied by the green hills, flowing waters, small towns and villages. All with the backdrop of a beautiful scenery.

A beautiful place to be, Dolalghat offers the magnificent views of the snowcapped mountains at the back while the front is adorned with comparatively shorter hills and valleys. Our river and the wide shore allow the visitors to relax and enjoy its beauty and peace starting in front of the hotel. Explore them whether you walk at their edges or swim through the deeper parts.

Enjoy the rural part of the village with its bridges and temples, small restaurants and the local market. Or just enjoy the solitude offered by these beautiful surroundings.

Wherever you go, the experience of being in Dolalghat is just wonderful!

Shelter

Under the name of shelter we are gathering all activities to make Dolalghat not only still more beautiful, but also to help people in need to get a better life.

Our activities range from:

Local school improvements: With the help from our still very small Shelter group, we made basic changes like school children safety, clean the school area, etc. Still, the school needs much more improvements. We are looking for some friends, who can help us to upgrade this small village school with their support and teaching skills.

Volunteering at the local school: Many Nepali children would like to make friends with foreign people, to talk, learn, share their ideas. If you by any chance have some spare time to giving classes like English or other subjects, you will find a big thankfulness coming in your direction.

YOU !!!

Cleaning Group: Together with some children of the local school, we have started to collect garbage and are educating some local people about the importance of clean environment. We hope to get more friends to join in our mutual efforts.

Feeding of the poor: we are currently providing some foods to the poor and disabled people of this area. We would be happy if you would be a part of our changemaking efforts.

Medical Help: Even small medical help is very welcome, as there is no steady doctor, dentist, therapist or veterinarian in Dolalghat.

Organic Farming: With lots of obstacles regarding farming in the recent years, we like to motivate and train Nepali farmers to go organic. If you have any knowledge about this, please be welcome to share your experiences with them.
